

Self Closing Pedestrian Gate

Introducing the Ritchie 5ft Pedestrian Gate, designed to meet the latest BS5709:2018 standards. Built for durability, ease of use, and improved accessibility, this gate is ideal for public rights of way, bridleways, and countryside access points. With features that prioritise both user safety and land management needs, it offers a reliable and compliant option for a wide range of environments.

Main Features

- Complies with BS5709:2018 recommendations
- Fitted with 50mm x 50mm mesh – safe and secure
- Hot dip galvanised for long-lasting corrosion resistance
- Supplied ready assembled – simple, efficient installation
- 180° hinge opening for wide, unimpeded access
- Overall width 1760mm, Internal width 1585mm, height to handle 1522mm

How does it meet the new BS5709:2018 standard?

- *Adjustable top hinge – helps achieve required slow self-close*
- *Cranked handle – easier access*
- *Yellow highlighted handle & drop latch*
- *"D" loop latch pin – safer than straight pins*
